

# 1. Chemical Product and Company Identification

| Trade Name      | : | ProtoFab™  |
|-----------------|---|--|
| Manufacturer    | : | Vistar (Xiamen) Industries CO., Ltd                      |
|                 |   | 899, Maqing Road, Haicang District, Xiamen, China 361026 |
|                 |   | Tel: 86-592-3862946                                      |
| Chemical Family | : | Bisphenol A epoxy, acrylate, photoinitiator              |
| CAS Number      | : | Trade secret   |
| Emergency Tel   | : | 86-592-3862946   |

# 2. Composition, Information on Ingredients

| Composition             | CAS # | % by weight |
|-------------------------|-------|-------------|
| Bisphenol A Epoxy Resin |       | 10-70       |
| Acrylate                |       | 10-30       |
| Photoinitiator          |       | 1-10        |

# 3. Physical Data

| (1)Color                         | : | Canary yellow    |
|----------------------------------|---|------------------|
| (2)Physical State and Appearance | : | Liquid           |
| (3)Water Solubility              | : | Slightly Soluble |
| (4)Viscosity                     | : | 546 cps (25.5°C) |
| (5)Vapor Pressure                | : | <0.14k Pa (20°C) |
| (6)Liquid density                | : | 1.127 g/cm3      |

| 4. Fire Fighting Measures |   |  |
|---------------------------|---|--|
| Extinguishing Media       | : | Dry powder fire extinguishing agent, alcohol-resistant foam    |
|                           |   | extinguishing agent, carbon dioxide, dry sand and water spray. |

Magna L90 Photoreactive Resin

| Special Fire-fighting Procedures | : | Fire fighters should wear positive pressure self-contained breathing |
|----------------------------------|---|--|
|                                  |   | apparatus(SCBA) and full turnout gear.                               |
| Unusual Fire/Explosion Hazards   | : | In case of fire toxic fumes might be formed. In case of fire and/or  |
|                                  |   | explosion, do not breathe fumes. Containers may rupture from         |
|                                  |   | pressure build-up.   |
| Protection of Fire-fighters      | : | While putting out the fire in the windward place, firemen should     |
|                                  |   | wear protective devices (goggles, protective clothing, gas mask      |
|                                  |   | etc.)  |
| Autoignition Temperature         | : | Not determined.  |
| Lower Explosion Limit            | : | Not determined.  |

| 5. Health Hazards    |   |   |
|----------------------|---|---|
| Target Organs        | : | Skin, eyes and respiratory tract  |
| Effects and Symptoms |   |   |
| - Skin Contact       | : | Avoid prolonged or repeated contact with skin. MAY CAUSE                  |
|                      |   | SKIN IRRITATION. May cause skin sensitization. Skin inflammation          |
|                      |   | is characterized by itching, scaling, reddening, or, occasionally,        |
|                      |   | blistering.   |
| - Eye Contact        | : | May cause eye irritation. Inflammation of the eye is characterized        |
|                      |   | by redness, watering, and itching.  |
| - Inhalation         | : | May cause irritation of respiratory tract, coughing, shortness of         |
|                      |   | breath. Vapors and aerosol can produce mucous membrane, nose              |
|                      |   | and throat irritation.  |
| - Ingestion          | : | May cause mild gastric irritation, abdominal spasms, nausea and           |
|                      |   | faintness.  |
| First Aid Measures   |   |   |
| - Skin Contact       | : | After contact with skin, wash immediately with plenty of water.           |
|                      |   | Wash gently and thoroughly the contaminated skin with running Version 1 2 |

# Magna L90 Photoreactive Resin

|               |   | water and non-abrasive soap.   |
|---------------|---|--|
| - Eye Contact | : | Check for and remove any contact lenses. In case of contact,         |
|               |   | immediately flush eyes with plenty of water for at least 15 minutes. |
|               |   | Get medical attention  |
| - Inhalation  | : | Remove victim from area of exposure if possible. Allow the victim to |
|               |   | rest in a well-ventilated area. Seek immediate medical attention.    |
| - Ingestion   | : | Do not induce vomiting unless directed by a physician. Never give    |
|               |   | anything by mouth to an unconscious person. If large quantities of   |
|               |   | this material are swallowed, call a physician immediately. Loosen    |
|               |   | tight clothing such as a collar, tie, belt or waistband. If vomiting |
|               |   | occurs, keep head lower than hips to help prevent aspiration.        |

| 6. Reactivity Data               |   |  |
|----------------------------------|---|--|
| Stability                        | : | High temperature triggers reaction.                                |
| Possibilities of Dangerous and   | : | Drastic reaction with strong oxidant and alkali.                   |
| Adverse Reaction                 |   | Reaction occurs with drastic heat emission after mass hardening.   |
|                                  |   | Harmful gas may be produced during drastic hardening and lead to   |
|                                  |   | the carbonization and decomposition of reactant.                   |
| Incompatibility, Conditions      | : | Keep away from direct sunlight, strong incandescent light and heat |
| and Materials to Avoid           |   | May react or be incompatible with oxidant and alkali.              |
| Dangerous Decomposition Products | : | Hazardous gas (carbon monoxide and hydrocarbon) may be             |
|                                  |   | produced under different combustion conditions.                    |

# 7. Spill and Disposal Considerations

| Small Spill and Leak | 1 | Wear approp  | priate protec | ctive clo | thing to prev | /ent  | skin contact. Wear  |
|----------------------|---|--------------|---------------|-----------|---------------|-------|---------------------|
|                      |   | appropriate  | respirator    | when      | ventilation   | is    | inadequate. Avoid   |
|                      |   | breathing va | apors of this | produc    | t. Avoid con  | itact | with skin and eyes. |

# for disposal by approved methods. Do not clean-up or dispose except under supervision of a specialist. Large Spill and Leak federal, state and local applicable regulations.

Waste Disposal Waste must be disposed of in accordance with federal state and local environmental control regulations. Do not allow product to reach sewage system /surface or ground water.

| 8. Personal Protection |   |  |          |
|------------------------|---|--|----------|
| Respiratory system     | : | Wear appropriate respirator when ventilation is inadequent   | uate.    |
| Ventilation            | : | Good general ventilation should be sufficient to control     | airborne |
|                        |   | levels.  |          |
| Skin Contact           | : | Gloves, chemical resistant (nitrile). lab coat.<br>Version 1 | 4        |

#### Magna L90 Photoreactive Resin

Avoid all possible sources of ignition (spark or flame). Keep unnecessary people away from spill area. Clean up spills immediately. Absorb with liquid-binding material (sand, diatomite, universal binders, or spill kit. Place in suitable clean, dry containers

Eliminate all ignition sources. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Keep unnecessary people away from spill area. Follow company spill response procedures. Wear protective eyeglasses or chemical safety goggles and face protection. Contact lenses are not protection devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses. Wear MSHA/NIOSH approved self-contained breathing apparatus or equivalent and full protective gear. Wear appropriate protective clothing to prevent skin contact. Place spilled material in an appropriate container for disposal. Dispose of according to all This material and its container must be disposed of in a safe way.

÷.

÷

#### Magna L90 Photoreactive Resin

**Eyes** 

**Other Special Considerations** 

Safety glasses with side shields.

Wear nitrile or other chemical resistant gloves to avoid skin contact when handling partially cured fabricated objects in the "green" state of cure (after initial laser cure). Expose freshly cut surfaces to light in order to complete the surface cure. When sanding fully cured surfaces, suitable respiratory protection for dust should be used. The object may be handled without gloves after the object has been properly treated to prevent skin contact with liquid photopolymer. Uncured liquid photopolymer can also be removed from the object in the partially cured green state by thoroughly washing the object with Tripropylene glycol monomethyl ether followed by post exposure to UV light and/or an oven bake at temperatures above 130℃.

#### 9. Handling and Storage Precautions

| Precautions to be Taken in | : | Keep away from heat. Keep away from sources of ignition. Empty          |
|----------------------------|---|---|
| Handling and Storage       |   | containers retain product residue and can be hazardous. Do not          |
|                            |   | breathe gas/fumes/vapor/ spray. Keep away from incompatibles            |
|                            |   | such as oxidizing agents. After handling, always wash hands             |
|                            |   | thoroughly with soap and water. Wear appropriate protective             |
|                            |   | clothing to prevent skin contact. Avoid contact with eyes, skin and     |
|                            |   | clothing.   |
| Handling                   | : | Avoid breathing vapors or spray mists. Use only with adequate           |
|                            |   | ventilation. Avoid contact with spilled materials and avoid runoff with |
|                            |   | soil and surface waterways. Keep container closed. Store in a cool      |
|                            |   | place.  |
